Fight against Misuse of Dowry law (IPC-498a)

Do you know you could be arrested and could be put in jail without bail even if you did not ask for dowry?

Do you know that a single line of false report (without any proof) by your wife/daughter-in-law (or any of her family member) could land you and your entire family up in jail.

Domestic Violence bill passed by Government will give your wife/daughter-in-law the right to throw you out of your own house.

Beware of false Dowry cases Protect your family members from 498a

Gender-biased Indian laws are causing the increase in matrimonial disharmony, increase in divorce cases, increase in abuse of human rights, putting parents and family members in jail and causing family harassment for years.

Criminal law section 498a is getting heavily misused by the wife/daughter-in-law and her parents to threaten and harass the husband and his relatives rather than resolving the marital problems amicably.
